

Steps to Installing Apache Maven:

Step 1:: Download the Maven Binary zip archive from this below link.

<https://maven.apache.org/download.cgi>

The screenshot shows the Apache Maven download page. The left sidebar contains navigation links such as 'User Centre', 'Plugin Developer Centre', 'Maven Central Repository', 'Maven Developer Centre', 'Books and Resources', 'Security', 'COMMUNITY', 'Community Overview', 'How to Contribute', 'Maven Repository', 'Getting Help', 'Issue Tracking', 'Source Repository', 'The Maven Team', 'PROJECT DOCUMENTATION', 'Project Information', 'MAVEN PROJECTS', 'Archetype', 'Artifact Resolver', 'Doxia', 'JXR', 'Maven', and 'Parent POMs'. The main content area is titled 'Files' and contains the following text: 'Maven is distributed in several formats for your convenience. Simply pick a ready-made binary distribution archive and follow the installation instructions. Use a source archive if you intend to build Maven yourself. In order to guard against corrupted downloads/installations, it is highly recommended to verify the signature of the release bundles against the public KEYS used by the Apache Maven developers.'

	Link	Checksum	Signature
Binary tar.gz archive	apache-maven-3.5.0-bin.tar.gz	apache-maven-3.5.0-bin.tar.gz.md5	apache-maven-3.5.0-bin.tar.gz.asc
Binary zip archive	apache-maven-3.5.0-bin.zip	apache-maven-3.5.0-bin.zip.md5	apache-maven-3.5.0-bin.zip.asc
Source tar.gz archive	apache-maven-3.5.0-src.tar.gz	apache-maven-3.5.0-src.tar.gz.md5	apache-maven-3.5.0-src.tar.gz.asc
Source zip archive	apache-maven-3.5.0-src.zip	apache-maven-3.5.0-src.zip.md5	apache-maven-3.5.0-src.zip.asc

Below the table, there are links for 'Release Notes', 'Reference Documentation', 'Apache Maven Website As Documentation Archive', 'All sources (plugins, shared libraries,...) available at <https://www.apache.org/dist/maven/>', and 'Distributed under the Apache License, version 2.0'.

The 'Previous Releases' section states: 'It is strongly recommended to use the latest release version of Apache Maven to take advantage of newest features and bug fixes. If you still want to use an old version you can find more information in the [Maven Releases History](#) and can download files from the [archives](#) for versions 3.0.4+ and [legacy archives](#) for earlier releases.'

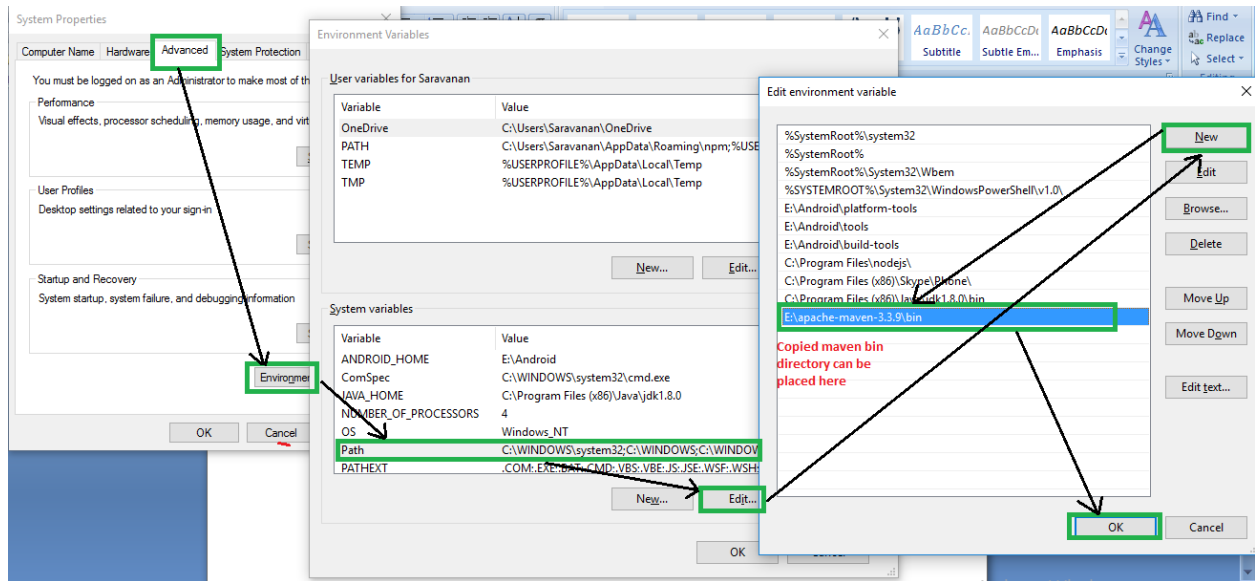

Step 2:: Extract the downloaded zip and copy paste in any of your Drives.

Step 3:: Open the extracted “apache-maven-3.5.0-bin” folder and go to bin folder, copy the path location

Eg: E:\apache-maven-3.5.0\bin

Step 4:: Set the maven path as a environmental path variable

- Go to the below location in your machine.
 - Path: Control Panel\System and Security\System
- Click on “Advanced system settings” and click on Environment Variables
- Add the Maven path in the Path variable under the System Variables
 - Eg: E:\apache-maven-3.5.0\bin

Step 6:: Go to **Command** window and type **mvn -version** as a command and enter.
Confirm the installation with the below reference snap

```
C:\WINDOWS\system32\cmd.exe
Microsoft Windows [Version 10.0.15063]
(c) 2017 Microsoft Corporation. All rights reserved.

C:\Users\>mvn -version
Apache Maven 3.5.0 (ff8f5e7444045639af65f6095c62210b5713f426; 2017-04-04T01:09:06+05:30)
